

Growing With Every Passing Mart Sourcing Day

Consistency is the key to success, it's not a single-day affair. When Uttar Pradesh embarked on a journey to rise as a global sourcing hub all across the world, why not India Expo Centre and Mart that possess all the potential, experience, knowledge, stakeholders, resources, manpower, thought leaders, intellectuals, vision, support of associations and the utmost Unity that make us way more compliant than any other entity in the country to rise as an ultimate sourcing hub. These capabilities just need to be publicised and transformed into a mission that would take time but make us achieve our goals for sure.

Now Uttar Pradesh is rising as one of the best destinations to invest and do business due to the reforming policies and traits of trading and investment. As a result, it is emerging as topmost and rapidly growing economy across the country. Simultaneously, Uttar Pradesh has emerged as the most dynamic State showing drastic development in terms of trade and business across the country. It would not be wrong to term Noida as the economic capital of the State being at the heart of the most technically and strategically driven

business hub. It is much evident in the latest project approved by Yamuna Expressway Industrial Development Authority to the proposed construction of an exhibition centre of over 200 acres of area in Sector 7 and a Furniture & Handcrafts Park near the coming international airport.

This project will add to the prominence of the India Expo Centre and Mart as a major B2B sourcing hub which is home to the 900 Mart owners. Those who have chosen this place as the destination of putting up for selling their stuff over the past year have been a testament to their collective resilience, dedication, and unwavering commitment to excellence. No wonder the entire country is eyeing Greater Noida as an emerging melting pot for sourcing and procurement. Especially, the prominent MICE destinations like India Expo Centre & Mart in the suburbs of Greater Noida, India which are easily accessible by road, air and metro which makes it even more appealing for the traders, manufacturers and buyers to throng at for the procurement and sourcing. All needed is active participation and support to achieve the results outlined in our action plan.

Message

We all have been through thick and thin during the last few months of our journey to achieve '3 Guna 30 Tak' and I believe that the coming months will be even more crucial to make it happen. Efforts never go in vain, every effort we make is valuable, leading us either to success or providing the experience necessary to reach even higher goals. The best is yet to come, and I say this with the confidence of my extensive experience in the MICE sector. Great entities and marts took time to establish themselves, and their journeys were as challenging as ours. Yet, they remained resolute in their pursuit of success and ultimately achieved it. Let's stay determined and committed to our goals, and I am certain we will see remarkable success in the coming years at the India Expo Centre and Mart.
